## Adopt A Quilt

I offer my quilts for adoption after I have the tops pieced. When you adopt a quilt, you follow along as I perform the remaining steps to finish and get that quilt shipped to the recipient. I give you updates and close up photos of the quilt so you can follow along. When your adopted quilt is completed, you get to show it at the PxP guild meeting.

If you use FB send me a Facebook Friend invitation. If you don't use FB, I'll keep you updated via email.

Social Media: When you adopt one of my quilts, **you are granting me permission** to list your name as the adopter and to post photos of you with your adopted quilt and/or photos of your label on Facebook (my personal page) and/or Piece by Piece Quilters FB page, PxP website, or PxP news letter. Note: I also post photos of my quilts on social media such as other FB groups I'm a member of (such as Angela Walters FMQ Challenge) but not your name, photos of you or of your label on those other groups.

Please email me if you are interested in adopting so I can let you know when I'll have the next round ready to offer. When the quilts are offered, select the one you want to adopt and follow the instructions below:

What you do after adopting a quilt:

1. Create a personalized label according to my guidelines. Either give it to me at the next PxP guild meeting or USPS mail it to me - I'm in the roster. I'll sew your label onto the back of the quilt. You may also include a card, letter, or photo to send to the recipient. For example, when my sister adopted a quilt, she sent photos of her dogs.
  
2. Provide the following information on a piece of paper, place in a plastic bag or envelope along with your quilt label. I use this information to match your label with your quilt, and to keep track of adopters so I can update you on status.
  - Name of the Quilt you are adopting
  
  - First Name, Last Name, email address
  
  - (Optional) Note to recipient. This is a short message that will go in the QR code sheet
  
  - How you want to follow along - email and/or Facebook.
